# BLUEcloud Accelerate Boot Camp Workshops

BC Accelerate Boot Camp Workshops

- Free monthly workshops

- Started Dec 2024

- The goals:
  - Get customers' BC Circ and BC Cat instances set up to their specifications.
  - System admins only configure new features in BLUEcloud products.

What does it include?

PSC-8127 - BLUEcloud Accelerate Boot Camp Workshops

Service Description

This workshop series is designed to reacquaint you with the admin settings in BLUECloud Central and help you get your instance ready for its debut at circulation desks and cataloging offices everywhere.

- Session one (BCAccel-1000) puts you in a class with a consultant to review your search targets, search policies, and your Cat and Circ profiles.
- Session two (BCAccel-2000) walks you through making the changes to your BCCat settings.
- Session three (BCAccel-3000) walks you through making changes to your BCCirc settings.

Beginning in January, the Consulting department will also hold BCAccelerate Office Hours (BCAccel-4000) once a month to answer your questions and help you fine tune your settings.

How is it going?

- Metrics:
  - 40+ Libraries have completed the workshop
- How many BC Circ activatations:
  - 10 Libraries have turned on BC Circ for the *first* time!

Early Adoption Advantages

- Ongoing sessions for new features
  - circ slip customizations, e.g, hold, transit, cko, cki

- Time with an BC expert to assist you with all your configuration questions

- Refresh your knowledge of BC Central.

- Make the transition to BC Circ or BC Cat easier.

- Libraries are prepared for new BC products as they are release, e.g., BCM2, BC Discovery
