# *Cybint News*

---

There is a hacker attack every 39 seconds, affecting one in three Americans each year.

95 percent of breached records came from three industries in 2016: Government, retail, and technology.

Since 2013 there are 3,809,448 records stolen from breaches every day, 158,727 per hour, 2,645 per minute and 44 every second of every day.

Approximately \$1 trillion is expected to be spent globally on cybersecurity from 2017 to 2021
