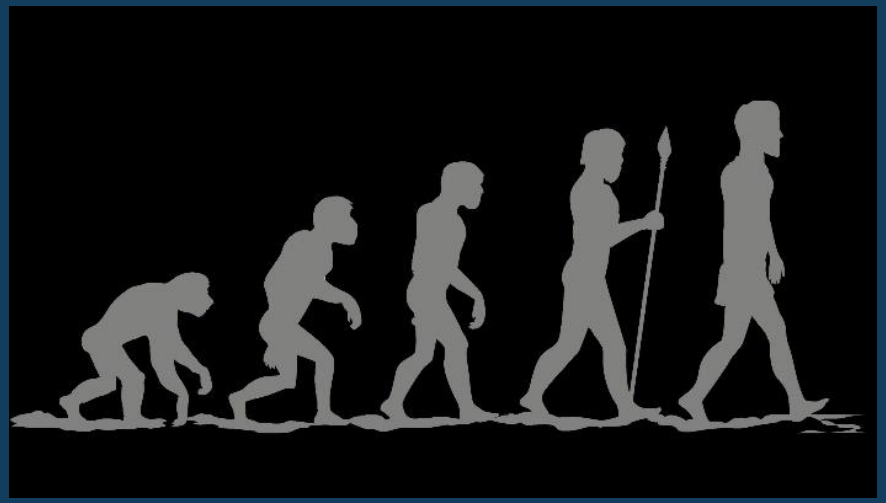
Agenda

- Web Services Vendor Partner Program
  - Background
  - Newly Created Web Services (WS) Products
  - New Name for WS External SDK
  - WS Connectors
- Vendor Partners
  - Current partners
    - https://www.sirsidynix.com/partners/
    - https://support.sirsidynix.com/vendors
- Questions

SirsiDynix®

Background



SirsiDynix®

Historically…

- **WS Internal SDK** – for the library's own development in extending their system.
  - Included with Platinum Premier
  - Included with API Subscription
- **WS External SDK** - intended for libraries connecting with 3rd party vendors.

Newly Created WS Products

SirsiDynix

Today…

- Think eRC Gateway and Connectors model
- Newly created products:
  - Web Services Gateway
  - Web Services Connector

Newly Created WS Products

SirsiDynix

Today…

- Benefits of WS include (but not limited to):
  - Proprietary API (controlled access to systems)
  - Resource-Oriented Architecture (ROA)
  - Secured transactions
  - Extend system functionality
  - Integration with 3rd party systems
  - Used in our own development (we eat our own dog food)
  - True open system – benefits our customers, vendor partners, and SD
  - Continuous development and support (releases 1-2x a year)

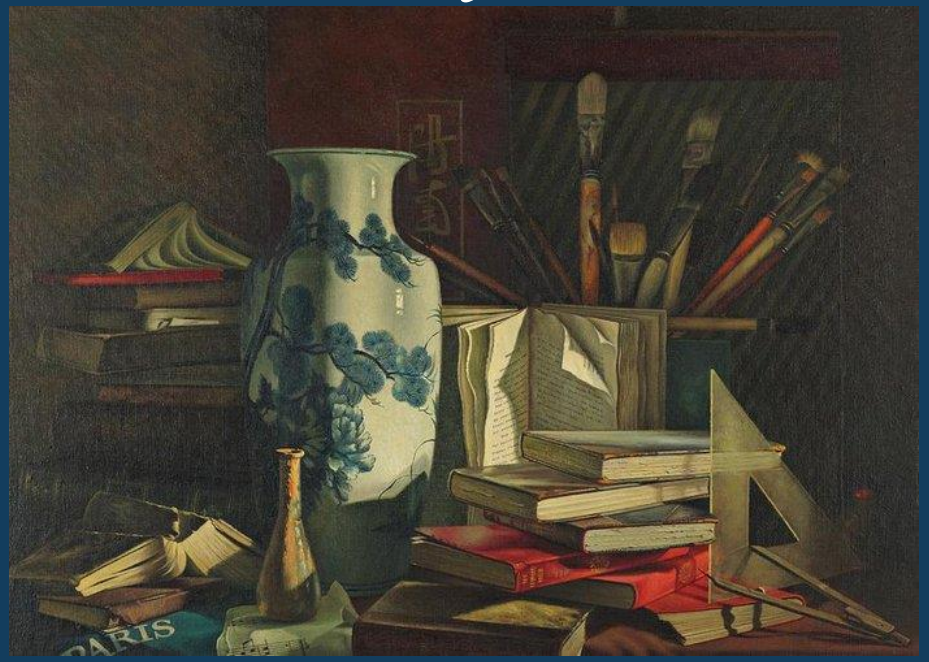
Newly Created WS Products

SirsiDynix

Today…

- Web Services Gateway
  - Replaces the old WS External SDK
  - Annual subscription that covers integration with any of our WS vendor partners
  - Included with Platinum Premier
  - One-time purchase in conjunction with the purchase of any vendor WS Connector
- Web Services Connector
  - Each certified WS vendor partner will have a connector that is priced according to scope of use:
    - Authentication only, RTAC, Item lookup, Bibs & Items, Circulation transactions, Discovery tools, etc.

Miscellany



SirsiDynix®

Some other tidbits…

- WS Gateway and WS Connectors go hand-in-hand.
- SirsiDynix adds a license to web services to authorize vendors.
- List of vendors – SDSC and company page.
- Coming Soon: Unlimited Non-Discovery WS/SIP2 Connector (think Universal SIP2) – offer multiple vendor WS Connectors for a single price.

Partnerships and Integrations

SirsiDynix®

Steps we take…

- Initial contact (vendor or library)
- Non-Disclosure Agreement (NDA)
- WS Master Agreement
- Setup testing environment
- Certify and support the integration
